

Chairman's Chat

October 2006

October is always a very busy month for me as Chairman of Cirencester Car Club with lots of jobs to be completed before the AGM in November.

Starting with the production of the magazine, gathering in the clubs perpetual trophies and getting them cleaned and re-engraved ready for the prize giving, along with ordering replicas once I have been able to finalise the award winners. Along with Kevin Smith ensuring both the clubs and Ltd company accounts are ready for the accountant to check before returning them for the AGM, getting the agenda's and last years minutes compiled ready for the meeting, not mentioning the sourcing of a venue at the last minute for the winter series.

At least before the AGM I will have taken in some motorsport for myself as I will be taking part in the Treviso Rally north of Venice in Italy with Gary Midwinter using his group B Audi Quattro Sport demonstration purposes of course.

Plans are well under way for next years Corinium Run and a basic route is nearly sorted with a choice of halfway venues, a weigh bridge is still to be sorted but the concept is there.

The 12 car series is now well under way and producing some interesting results, Kevin Smith is organising the next round and his events are always good so don't miss out

Martin Saunders
Chairman
