

Chairman's Chat

July 2007

July and August are usually a quiet time for the club, but this year behind the scenes the Committee are working extremely hard to organise it's inaugural introduction to motor sports weekend 10/11/12 August 2007. This weekend of motoring activities is being held in conjunction with the National Motor Sports Week, we are the first club to announce such an initiative in support of the Motor Sport Industry Association's Motor Sport Week.

This week is being organised with the aim of getting as many of our members out to take part in as many of the activities that we are organising as possible. Secondly it is to promote our club and events to the wider general public, It is with this in mind that I ask you all to help promote this event far and wide and in doing so, I have included a couple of our flyers for the weekend within this magazine.

I would like to congratulate new member Elliot Barnes on winning the third round of the Summer Series, it is great news for the Club to an influx of new younger members. In winning the event Elliot also managed to beat his dad, well done mate!

Looking ahead the Club is about to put in place details for its forthcoming 12 Car Series and a Navigational Training Evening will see the start of this series.

The Marshal's Training Evening is also planned for early September, if you do not currently hold a Marshal's Licence this is an ideal opportunity to attend and receive the appropriate training and licence.

Martin Saunders
Chairman
