

Chairman's Chat

July 2010

This month I have the pleasure in being able to congratulate the club on running its first special stages rally for some fourteen years and first major competitive event in all most ten years.

A big thank you to everyone involved especially to Mark and Melanie who fronted the team. The event was well received amongst the competitors and glorious weather topped the day.

It was without doubt the right decision to run the event even though a week before the event the break even point was not even close, luckily a further ten entries running up to the event helped relieve the burden on the clubs finances.

It is was also great to see so many old faces and friends at the venue, competing marshalling or organising, in fact most of Cirencester Car Club previous stage rally Clerks of Course were present as well, right from the early Cirencester Park/Arkells rallies, Down Ampney's and Kemble's

The Introduction To Motor sports weekend has changed formats, see details later in this magazine. Please come and support your club or this event may not survive.
